Thanks for taking the time to bring me up to speed last week! I've got a much better sense of what needs to happen to move the project forward.

Appreciate the resources. Will pass them along in hopes the owners can complete the removal and avoid any more Christmas Eve adventures in the future.

Allie,

The organiz[redacted] TNC and here is the email address Beth Styler Barry[redacted]

I also found an old email from her that included this person's name at the bottom as well, it may be someone that also could be contacted about dam removals.

Hi[redacted]

I'm scheduled to be in a meeting regarding the Centerton Dam next Monday and I'm hoping you can clue me in on some information around the dam. I'm seeing your name on an attendance sheet from a meeting in September, 2012 so figured it can't hurt to reach out! I believe Curt Gellerman was the Green Acres negotiator when this project first started.

From what I gather the dam was breached in the 2010s from a major storm and is now classified as a community hazard by Dam Safety.

I have two questions for you:

- Is there any information you can share regarding the hazard status? Parks staff was under the impression that it may not be an immediate hazard now that it has been breached, but that doesn't line up with the background I've been provided. Appreciate any information you can

provide about the current status and your program's expectations for removal/remediation (timeline, impact on potential sale, etc.)

- The owner has submitted an application to NRCS for assistance with removing the dam, but it did not rank high enough. Do you know of any other additional resources they might look into for assistance with removing the dam?

Thanks for any information you can provide!
Allie
