Dear Mr. Ritchey,

On behalf of the Lake Centerton Homeowners Association, I am asking for your assistance in helping the homeowners find contractors who can give us a realistic bid for reconstructing our dam. As you know we have a DEP approved plan to rebuild the dam. So far Castle, our engineering firm, has given us a bid of $2 million and Marine Maintenance has given us a bid of $3 million. Neither of these firms provided us a detailed proposal with itemized charges. We need a realistic proposal to move forward. We have already spent over $60,000 in engineering costs of our State loan of $1.25 million.

1. Can we obtain a cost estimate from state engineers for the plan DEP approved, so we can compare and determine if proposals we receive are reasonable?

2. Can the State provide a list of contractors for us to solicit for proposals?

3..Can you recommend contractors who could provide us a more cost effective proposal?

And finally, can you suggest additional funding options for us in addition to the loan; since even at a million dollars, the costs may be too excessive for the 10 homeowners to bear.

Any guidance or assistance you can offer will be greatly appreciated.

Regards,
