**Cc:** Michael Rossi; [redacted]
**Subject:** [EXTERNAL] C File No. 35-3) Updated
**Date:** Sunday, January 29, 2023 9:04:15 AM
**Attachments:** PH_Centerton Dam Removal Feasability Concept Design Estimate 11.16.2021.pdf

---

Hello [redacted]

It has been a while since we have communicated and I hope all is well with you.

I am writing to inform you that we are continuing with our efforts to officially [redacted] the Centerton Lake Dam in accordance with the proper provision of the Safe Dam Act.
As indicated in my October 3, 2021 letter to the NJDEP, we are working with CU Maurice River, which is a nonprofit organization that will oversee the [redacted] of the dam. They specialize in environmental projects and have agreed to help guide us through this process.

Below is a project status update.

1. Through CU Maurice River, we have been awarded the following grant money to fund the initial Feasibility Study for the dam [redacted]
    a. The Nature Conservancy [redacted]
    b. US Fish and Wildlife Service $35,000

2. CU Maurice River contracted with Princeton Hydro (PH) during the 3rd quarter of 2022.
    a. See attached PH outline for the feasibility study
    b. PH has since worked to collect background data from the NJDEP and other resources.
    c. PH is now scheduled to conduct their initial on-site visit February 7th & 8th 2023.

3. Depending on how quickly the field survey work moves along, the Dam Investigation (Task 3.1 of the study) may be completed with this initial on-site visit. If not, another date will be scheduled.

In the meantime, we will continue to make sure the spillway gate channels remain free of any debris that could limit the flow through those areas.

Please feel free to contact me or Michael Rossi (VP Homeowners Association @ [redacted] if you have questions.

Thank you,
Cliff Wheaton
Secretary / Treasurer
Lake Centerton Park Homeowners Association
