Subject: EC06-014 Centerton

Scott, the Lake Centerton Home Owners Association is dropping their project and want to start repaying back what they have borrowed. The dam failed after we entered into this loan agreement and the cost changed significantly and now they can't afford to move the project forward. The Bureau of Dam Safety is okay with this. I have an email back to them at this time telling them that once we do this that we will unobligated the remaining funds and no further funding under this loan will be available to them. I told them that it would not preclude them from applying under future application periods if they decide later to advance the project.

Once I get confirmation back from them that they understand this, I will give you the green light to prepare and mail the repayment schedule. I believe they borrowed $68,879.30 for the engineering work that they had completed.
